A unique place with fairy chimneys, rock churches, rock valleys, underground cities dating back to pre-history, special local wines... All a rich heritage of natural formations, early-late Christian-Muslim cultures. A mosaic of nature and culture. -

*iii.* Touristic trip to the Narlıkuyu, Cennet-Cehennem (Heaven&Hell) and Kanlıdivane will be organized for interested persons. Between Silifke and Mersin there is the little fishing village Narlıkuyu which you should not pass by without trying the delicious fish by the turquoise bay. In the Narlıkuyu you can see a Roman mosaic depicting the Three Graces. Around Narlıkuyu an exciting excursion is to Cennet-Cehennem (Heaven&Hell), and the Astım-Dilek Caves which are deep chasms, one of which has a chapel. There are important remains which are symbols of that region like The Castle of Corykos on the beach facing the Kızkalesi (Maiden's Castle) which stands on an islet 200 m off-shore.
